Don't Leave Your Retirement Savings Behind

Have you worked for another employer before joining the De Beers Group of Companies? You may have retirement savings in a previous employer's pension fund that can be transferred to the Debswana Pension Fund (DPF).

What is a Transfer-In?

A **Transfer-In** allows you to move eligible retirement savings from another approved retirement fund into DPF, subject to the Fund Rules and applicable transfer requirements.

"Your retirement savings have worked hard for you. Bring them together in DPF and make every pula count towards your future."

How to transfer your savings

It's a simple 5-step process:

1 — Inform Mmila Fund Administrators

Tell Mmila that you have retirement savings with another approved superannuation fund.

2 — Receive your confirmation letter

Mmila will provide a confirmation letter confirming your membership with DPF.

Tip: Keep this letter safe - it will be required by your previous fund.

3 — Submit the confirmation letter

Send the letter to the superannuation fund you wish to transfer from.

4 — Wait for the transfer

Once the transfer is complete, submit proof of payment to Mmila Fund Administrators.

Remember: Transfer-Ins are managed under a deferred record.

5 — Record created

Mmila will confirm receipt of the funds and create your deferred member record.

Why consider a Transfer-In?

Keep your retirement savings together
Consolidate your benefits from previous employment.

Avoid losing track of benefits
Don't leave your hard-earned savings behind.

Make it easier to manage your retirement savings
Have everything in one place, with DPF.

Frequently Asked Questions

1. Can I transfer retirement savings from my previous employer?
Yes, you may be eligible, depending on the rules of your previous fund, DPF's requirements and the applicable transfer arrangements.

2. Will a Transfer-In increase my DPF retirement benefit?
The transferred amount may increase your retirement savings, but the overall benefit depends on the amount transferred, applicable charges, investment performance, and any benefits you may be giving up in your previous fund.

3. Is a Transfer-In compulsory?
No. First establish whether a transfer is permitted and whether it's right for you.
